Learning Objectives

At the end of this chapter you can

- Log on to the Fiori Launchpad
- Describe the FLP elements of tile groups, tiles, help and search
- Apply personal system settings,
- Effectively use help
- Understand the difference between the transactional, analytical and Fact Sheet Fiori app types.

Log on to an SAP system

The image shows the SAP Log On dialog box. It has a blue border and a background image of a pink flower. The dialog contains four input fields: 'User' with the value 'fiori-adm', 'Password' with masked characters '*****', 'Language' with a dropdown menu showing 'EN - English', and 'Client' with the value '200'. Below the input fields are two buttons: a blue 'Log On' button and a white 'Change Password' button.

The screenshot displays the SAP Fiori Launchpad (FLP) Home page. At the top left, a user icon and the SAP logo are visible, with an arrow pointing to the user icon labeled 'User Options Page'. To the right of the logo is the text 'Company Logo'. The top navigation bar includes tabs for 'Controlling', 'Enterprise Asset Management', 'Financial Accounting', 'Materials Management', 'Navigation', 'Production Planning and Execution', 'Project Management', 'Sales and Distribution', and 'Warehouse Management'. A search icon in the top right corner is labeled 'Global Search'. The main area is filled with various 'Fiori Tiles' (labeled 'Fiori Tile' with an arrow). These tiles are organized into 'Tile Groups' (labeled 'Tile Groups' with an arrow). The first group contains tiles for 'Curricula Material PDF Download Curricula', 'Manage G/L Account Master Data', 'Manage Cost Centers', 'Manage Cost Center Groups', 'Create Material', 'Change Material', 'Display Material', 'Display Bill of Material', and 'Create Bill of Material'. The second group contains 'Change Bill of Material', 'Maintain Bill Of Material Create, change & dis...', 'Create Routing', 'Change Routing', 'Display Routing', 'Create Material Cost Estimates', 'Release Material Cost Estimates', 'Manage Statistical Key Figures', 'Manage Activity Types', and 'Run Actual Price Calculation Cost Centers'. The third group contains 'Run Plan Price Calculation Cost Centers', 'Plan Primary Costs Depreciation/Interest', 'Display Reports Profitability Analysis', and 'Learning Snack CO Single-Choice'. Below these are sections for 'Enterprise Asset Management' and 'Financial Accounting', each containing their own set of tiles. The 'Enterprise Asset Management' section has three tiles: 'Curricula Material PDF Download Curricula', 'Display Technical Object', and 'Learning Snack EAM Single-Choice'. The 'Financial Accounting' section has ten tiles: 'Curricula Material PDF Download Curricula', 'Display Financial Statement', 'Manage G/L Account Master Data', 'Manage Customer Line Items', 'Display Customer Balances', 'Maintain Business Partner', 'Park General Journal Entries', 'Manage Journal Entries', 'Create Incoming Invoices', and 'Manage Supplier Line Items'.

Help Functions in 'classic' Fiori Apps

The diagram illustrates the help functions available in a classic Fiori app. It shows a main application window with a 'Business Partner' input field. From this field, two paths are shown:

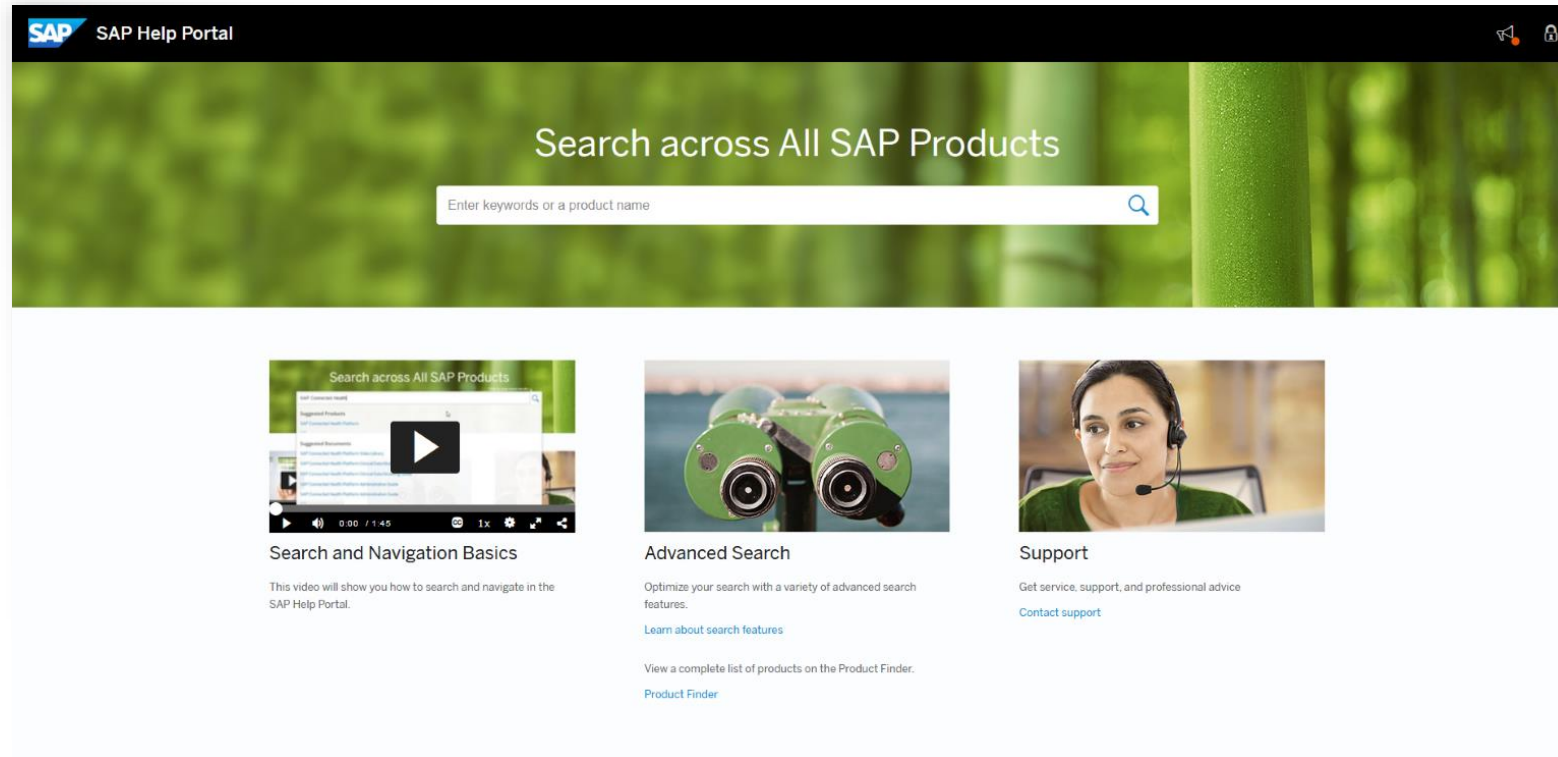

- F1: Description of input fields**: This path leads to a 'Performance Assistant' window. It displays the field name 'Business Partner Number' and provides a description: 'Key identifying a **business partner** in the SAP system. The key is unique within a client.'
- F4: Value list**: This path leads to a 'Business Partner Number (1)' window. This window contains search criteria (Name 1/last name, Name 2/first name, Search term 1, Search term 2, Business Partner, BP Category) and a 'Maximum No. of Hits' set to 500. It then displays a list of search results.

The search results table is as follows:

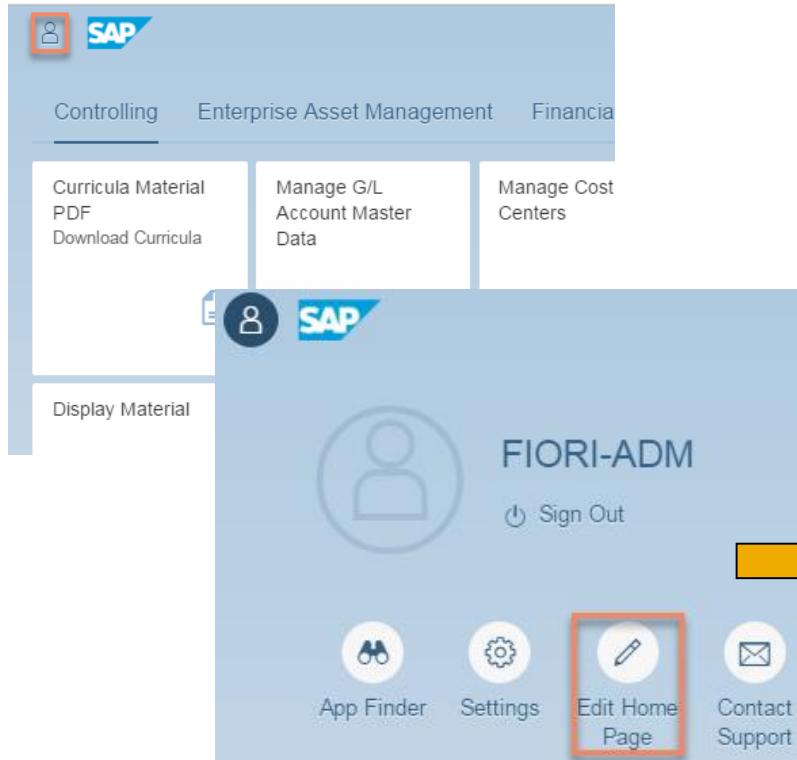

Name 1/last name	Name 2/first name	Search term 1	Search term 2	BP
